Summary

Fresh graduate in Informatics with experience in **software development and system analysis**. Proficient in **PHP, Flutter, and web technologies**, with hands-on experience developing web and mobile applications, gathering requirements, designing system workflows, and conducting UAT. Strong analytical and problem-solving skills with the ability to translate **business requirements into effective technical solutions** and collaborate across teams.

Education

UIN Sunan Gunung Djati Bandung, Indonesia

Bachelor of Engineering – BE, Informatics , GPA: 3.74/4.0 *2022 - 2026*

Experience

PMI Hospital Bogor ***Fullstack Engineer - MagangHub Kemnaker*** Sep 2026 – Mar 2027

- Developed and enhanced **SIMRS modules** using **Laravel and PHP** to support hospital operations.
- Implemented new features and resolved system issues based on **business requirements**.

Pigeon Corporation ***Fullstack Engineer - Full Time*** Jun 2026 – Aug 2026

- Developed internal business modules using **PHP** and mobile applications using **Flutter**.
- Implemented system improvements, optimized functionalities, and resolved application issues based on business requirements.

PT KAS PRIMA ***IT System Analyst - Project-Based*** Sep 2025 – Now

- Conducted **requirement gathering** and created **SRS, UML, and BPMN** documentation to translate business requirements into technical solutions.
- Led **UAT testing**, created test cases, and collaborated with developers and stakeholders to ensure system readiness before deployment.

Roote Trails ***Backend Engineer Intern*** Feb 2025 – May 2025

- Developed backend features using **Laravel Filament** and implemented API authentication with **Laravel Sanctum**.
- Managed user access control using **Spatie** roles and permissions and supported system integration.

Bangkit Academy (Google, Tokopedia, Gojek, & Traveloka) ***Cloud Computing - Cohort*** Sep 2024 – Jan 2025

- Graduated with an average score of **93.10** and developed a tourism platform for Community-Based Tourism (CBT).
- Selected as one of the **best teams** in the company track.

Projects

Hospital Information Management System (SIMRS) | *PMI Hospital Bogor* 2026

- Developed and enhanced SIMRS modules using **Laravel and PHP** to support hospital operations.

Internal Web & Mobile Application Development | *Pigeon Corporation* 2026

- Developed **8 Modul internal web and mobile modules** using **PHP and Flutter**, implementing features and resolving application issues.

SPM Rest Area Management System | *PT Hutama Karya (Persero)* 2026

- Worked as a **System Analyst and UI/UX Designer**, creating **SRS, BPMN, UML**, and conducting **UAT testing**.

Carwash Management System | *PT KAS PRIMA* 2025

- Worked as a **System Analyst**, creating **SRS and UML documentation** and conducting **UAT testing**.

Si-JACK Sistem Informasi Jabatan Fungsional | *Direktorat Jenderal Cipta Karya* 2025

- Developed responsive and dynamic user interfaces using **Vue.js** to support functional position management.

Pemeliharaan Aplikasi Inspeksi Drainase | *DPSI Bina Marga PUPR* 2024

- Developed and improved backend functionalities for a drainage inspection system using **CodeIgniter**.

Achievements

IT Fair UIN Bandung hackathon | *3rd place* March 2024

International Invention Competition for Young Muslim Scientists | *3 Place with Gold Medal* August 2024

Best team at bangkit company track capstone | *Bangkit By Google* January 2025

Skills

System Analysis: Requirement Gathering, SRS Documentation, UML, BPMN, Workflow Analysis, UAT Testing, SDLC
Database & Data: SQL (JOIN, Aggregation), MySQL, PostgreSQL, MariaDB, Data Modeling (Normalization, ERD)
Developer Tools: Linux, Git, Docker, AWS, GCP,, PostgreSQL, Postman, Redash
Programming: Flutter, PHP (Laravel, CodeIgniter), REST API,
Soft Skills: Analytical Thinking, Detail-Oriented, Communication, Problem-Solving, Collaboration, Adaptability
